

Aluminum foil tape

A high tensile strength aluminum foil backing, combined with a high performance flame-retardant acrylic adhesive

Features:

- ▲ Soft aluminum foil, combined with a transparent high performance flame-retardant adhesive, which provides high peel adhesion, strong holding power and high-grade fire rating
- ▲ Designed for sealing joints and seams of foil jacket facings in air-conditioning ductwork

Specifications:

Material:	Pure Aluminium Foil
Thickness	35 45 60 70 90μm
Roll Width	20-1030mm
Use	Insulating and protection
Adhesive	Acrylic
Adhesive Type	Pressure sensitive
Adhesive Side	Single Sided
Elongation	3%
Working temperature	-30°C ~ 120°C
Feature	Heat-Resistant

Inner packing:

Cut roll: printed core and shrink wrapping

Log roll: cardboard wrapping

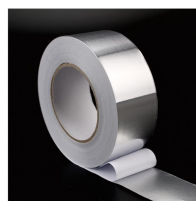

Jumbo roll: plastic film + corrugated board wrapping

Outer packing:

Cut roll: carton

Log roll: carton + pallet / ply-wooden case

Jumbo roll: ply-wooden case
